Specification

1. The amendments to the specification filed on 11/18/2010 are acceptable and should be entered. The amendments correct the numbering of parts so that the specification and the drawings match. No new matter is added.

Drawings

2. The drawings were received on 10/29/2010. These drawings are accepted.
3. Another set of drawings was received on 11/18/2011. These drawings are not accepted because they are not labeled.
4. The drawings filed on 10/29/2010 should be used in the patent.

REASONS FOR ALLOWANCE

5. The following is an examiner's statement of reasons for allowance: the prior art fails to teach or fairly suggest every limitation of the methods of claims 1 and 9. Neteler (US 6,531,197) teaches a method for heat sealing two flexible sheets comprising an active film and foil combination to one another to form a flexible package (See col. 3, lines 22-67; col. 4, lines 1-13). The active film is a silica impregnated microporous polyolefin layer which covers the entire foil and is present in the area where the heat seal is formed (See Fig. 1 and 2). Neteler is silent regarding a step of selecting an area for attachment for the active film, the active film attachment area being outside the area where the heat seal is to be formed. Neteler is also silent regarding a separate step of applying the active film to the active film attachment area prior to attaching the active

Art Unit: 1746

film and foil combination to a separate sealing area of a flexible package. Because the prior art lacks these teachings, the instantly claimed method is allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to CARSON GROSS whose telephone number is (571)270-7657. The examiner can normally be reached on Mon-Fri 8:30-6:00.
